### Ethical Issues In Community Based

Probably the most familiar of ethical issues – perhaps because it's the one most often violated – is the expectation that communications and information from participants in the course of a community intervention or program (including conversations, written or taped records, notes, test results, etc.) will be kept confidential.

### Section 5. Ethical Issues in Community Interventions

Ethical issues arise at each stage of community-based research and intervention. We divide community-based research and intervention into six stages: (1) selecting the setting in which to address the research problem, (2) designing the research or intervention to fit the setting, (3) recruiting subjects, (4) collecting data, (5) data handling, analysis, storage and ownership, and (6) disseminating findings.

### Ethical Issues in Community-Based Research and ...

This chapter explores ethical issues in community-based, participatory, and action-oriented forms of research (CBPAR). These approaches to research have evolved from diverse philosophical, theoretical, and disciplinary traditions but share a commitment to bringing researchers, community members (those most affected
