If that doesn't work, check the router or other device's manual to find advice for that Linksys model. You can find your device's manual in PDF format from Linksys Support . A factory reset also returns the IP address that's configured for the Linksys device back to 192.168.1.1, or whatever the default may be, but doing so could cause problems.

Linksys Default Password List (Updated September 2020)

I have a BEFSX41. There is no model number listed on the bottom plate. I want to have one of the computers on the network have a static IP and the other devices have IPs assigned by DHCP. The manual seems to indicate this is possible but the management screens for my router differ from those in the ...

BEFSX41 -- Setting Static IP - Linksys Community

The BEFSX41 is a router with an integrated 4 port ethernet switch. An ethernet switch connects multiple ethernet devices into the same LAN. The BEFSX41 thus combines two devices: an ethernet switch and a router. The switch is connected to the LAN side of the router. Of course, for simplicity the BEFSX41 is called only "router".
